Visit various different environments

**Basic tour price per person(min 2 people).**  
From AU\$90.00

**Tour includes,**  
Hotel pickup, Entrance fees, Bird Guide, Bird list,  
Transport

## Birding hot spots

Birding sites may vary depending on weather, tide and time of the year. Here are some examples.

### Yorkey's Knob

Small pond with swamp vegetation. Good place to see honeyeaters and of course, water birds. Australian Darter breeds here. The undeveloped land nearby often has some interesting species.

### Cairns Esplanade

A good variety of waders can be seen when the tide is right. In the esplanade, gardens Rainbow Lorikeet, Double-eyed Fig-Parrot, Sacred Kingfisher and Honeyeaters are common.

### Centenary Lakes

Wide varieties of habitat, mangroves to rainforest. Fresh water and saltwater lakes. Little Kingfisher, crakes and Black Bittern are sometimes seen here,
